This is an excelt pack, and it is very well constructed. I would recommend this product to everyone.. This pack is good for anyone with Horseshoe Curve, or NS 8102 (NS heritage ES44DC DLC), and does not care era specific details. I got it just because of the fascination of the PRR I have,and to break away from my normal trains (I purchase mostly modern BNSF DLC) to have somethin' different. And It goes with the Balt' & Ohio rolling stock well.. Nice pack. Thanks!
